## New Challenges in Academia

11:30

### Lunch

12:00 *Opening remarks*

Marit Bakke, Dean

12:05 *Flash talk*

**3D printing new bone** - Åshild Johansen (IKO), Ph.D.-candidate  
**Public values and costing perspectives: a conjoint analysis of Norwegian citizens' preferences for health and societal priority setting criteria** - Audun Brendbekken (IGS), Ph.D.-candidate  
**Role of TGF- $\beta$  in mitochondria transfer in malignant brain tumors** - Shannon Moreino (IBM), Ph.D.-candidate  
**How computer aided polyp detection (CAdE) influences endoscopists with different experience levels in an everyday settings-Preliminary data** - Tom Andre Pedersen (K1), Ph.D.-candidate  
**Sex-biased risk factors for cardiovascular disease** - Helga B. Midtbø (K2), Researcher

12:30 *Keynote talk*

**From Bench to Backlash: The Vaccine Research Crisis**  
-Rebecca Jane Cox, Professor, Dept. of Clinical Science

13:00 *International collaboration*

**International Team Science in Psychiatry: The GEMRIC Model**  
-Leif Oltedal, Associate Professor, Dept. of Clinical Medicine

13:15

### Coffee Break

13:30 *Science talk*

**Empowering the Powerhouse: How Mitochondria Keep Metabolism and Signaling in Balance**  
-Mathias Ziegler, Professor, Dept. of Biomedicine

13:45 *Keynote talk (Guest)*

**AI Is Not the Assistant You Think It Is**  
-Pål Grønås Drange, Associate Professor, Dept. of Informatics

14:15 *Panel discussion*

**Topic: New Challenges in Academia**  
**Moderator: Marion Solheim**, Senior Adviser, Communication  
-Kjell-Morten Myhr, Vice-Rector  
-Marit Bakke, Dean  
-Pål Grønås Drange, Associate Professor  
-Rebecca Jane Cox, Professor

15:00 *Final remarks*

Silje Skrede, Vice Dean of Research

Slutt på forskningsdagen
