Autumn semester		Spring semester	
1st year			
1st semester (MED01)		2nd semester (MED02 and MED2)	
Introductory course Cell Community medicine (dissimilarity and health) Course in emergency treatment	S	Cell2 Musculoskeletal system 1 Clinical practice 2 days	S
2nd year			
3rd semester (MED3)		4th semester (MED4)	
Introduction to Psychology Neurobiology and sensory apparatus Genetics and evolution Immunology Hematology 1 Clinical practice 4 days	S	Digestion Nutrition/energy metabolism Nephrology/urology 1 Microbiology Reproduction 1 Respiration 1 Circulation 1 Endocrinology Environment and society General practice Clinical practice 4 days	S
3rd year			
5th semester (MED5)		6th semester (MED6)	
Pathology Pharmacology Clin. Biochemistry Circulation 2 Respiration 2 Radiology Clinical practice 2 weeks	S	Geriatrics Pediatrics International health Community medicine Musculoskeletal system 2 Digestion / nutrition 2 Anaesthesia Emergency medicine Clinical practice 2 weeks	OSCE
Students are divided into class A and B. From the 7th semester, each semester run twice a year			
4th year			
7th semester (MED7)		8th semester (MED8)	
Psychiatry - including affiliated clinics 4 weeks Otorhinolaryngology Ophthalmology All courses taught in Norwegian Neurology	S	Elective courses* Internal medicine Surgery 1 Dermatology Endocrinology 2 Nephrology/urology 2 Hematology 2 Clinical practice 8 weeks	S
Class B		7th semester (MED7)	
Elective semester		Elective courses* Psychiatry - including affiliated clinics 4 weeks Otorhinolaryngology Ophthalmology All courses taught in Norwegian Neurology	
5th year			
9th semester (MED9)		10th semester (MED10)	
Pediatrics Gynecology including affiliated clinics, 7w Obstetrics Child and adolescent psychiatry All courses taught in English Medical genetics	S	Elective courses* Project work Preventive medicine Oncology Addiction medicine Forensic medicine Pain and palliative medicine Occupational medicine	S
Class B		9th semester (MED9)	
Internal medicine Surgery 1 Dermatology Endocrinology 2 Nephrology/urology 2 Hematology 2 Clinical practice 8 weeks		Elective courses* Pediatrics Gynecology including affiliated clinics, 7w Obstetrics Child and adolescent psychiatry All courses taught in English Medical genetics	
6th year			
11th semester (MED11)		12th semester (MED12)	
General practice Social security medicine Digestion 3 Respiration 3 Musculoskeletal system 3 Circulation 3 Surgery 2 Emergency medicine Infection Nephrology/urology 3 Including clinical practice (GP / community health care) 6 weeks	S	Elective courses* Case-based teaching Integrated clinical semester OSCE	OSCE
Class B		11th semester (MED11)	
Project work Preventive medicine, occupational medicine Oncology Addiction medicine Forensic medicine Pain and palliative medicine		Elective courses* General practice Social security medicine Digestion 3 Respiration 3 Musculoskeletal system 3 Circulation 3 Surgery 2 Emergency medicine Infection Nephrology/urology 3 Including clinical practice (GP / community health care) 6 weeks	
12th semester (7th year) (MED12)			
Class B		Case-based teaching Integrated clinical semester OSCE	

* Some of the elective courses will be taught in English
S Semester exam
OSCE Objective Structured Clinical Examination, modified version
These semesters are recommended for incoming students
