Autumn semester

Spring semester

1st year

1st semester (MED01)

Introductory course Cell1	S
Community medicine (dissimilarity in health)	
Course in emergency treatment	

2nd semester (MED02 and MED2)

Cell2	Musculoskeletal system 1	S
Clinical practice 2 days		

2nd year

3rd semester (MED3)

Introduction to Psychology	Neurobiology and sensory apparatus	S
Genetics and evolution	Immunology Hematology 1	
Clinical practice 4 days		

4th semester (MED4)

Digestion	Nutrition/energy metabolism	Nephrology/urology 1	S
Microbiology	Reproduction 1	Respiration 1 Circulation 1	
Endocrinology	Environment and society	General practice	
Clinical practice 4 days			

3rd year

5th semester (MED5)

Pathology	Pharmacology	Clin. Biochemistry	S
Circulation 2	Respiration 2	Radiology	
Propedeutic course			

6th semester (MED6)

Elective courses*	Geriatrics	OSCE
	Community medicine	
	Digestion / nutrition 2	Anaesthesia Emergency medicine
	Propedeutic course	

Students are divided into class A and B. From the 7th semester, each semester run twice a year

4th year

7th semester (MED7)

Class A	Psychiatry - including affiliated clinics 4 weeks	S	
	Otorhinolaryngology		Child and adolescent psychiatry
	Ophthalmology		
	Neurology		All courses taught in Norwegian

8th semester (MED8)

Elective courses*	Internal medicine	Surgery 1	S
	Dermatology	Endocrinology 2	
	Nephrology/urology 2	Clinical practice 8 weeks	
	Hematology 2		

Class B

Elective semester	
-------------------	--

7th semester (MED7)

Elective courses*	Psychiatry - including affiliated clinics 4 weeks	S	
	Otorhinolaryngology		Child and adolescent psychiatry
	Ophthalmology		
	Neurology		All courses taught in Norwegian

5th year

9th semester (MED9)

Class A	Pediatrics	S	
	Gynecology		including affiliated clinics, 6w
	Obstetrics		
	Medical genetics		All courses taught in English

10th semester (MED10)

Elective courses*	Project work	S	
			Preventive medicine
		Oncology	Addiction medicine
		International health	
		Forensic medicine	
		Pain and palliative medicine	
		Occupational medicine	

Class B

Class B	Internal medicine	Surgery 1	S
	Dermatology	Endocrinology 2	
	Nephrology/urology 2	Clinical practice 8 weeks	
	Hematology 2		

9th semester (MED9)

Elective courses*	Pediatrics	S	
	Gynecology		including affiliated clinics, 6w
	Obstetrics		
	Medical genetics		All courses taught in English

6th year

11th semester (MED11)

Class A	General practice	Social security medicine	Digestion 3	S	
	Respiration 3	Musculoskeletal system 3	Circulation 3		Surgery 2
	Emergency medicine	Infection	Nephrology/urology 3		
	Including clinical practice (GP / community health care) 6 weeks				

12th semester (MED12)

Elective courses*	Case-based teaching	Integrated clinical semester	OSCE

Class B

Class B	Project work	S		
			Preventive medicine, occupational	
			Oncology	Addiction medicine
			International health	
			Forensic medicine	
Pain and palliative medicine				

11th semester (MED11)

Elective courses*	General practice	Social security medicine	Digestion 3	S	
	Respiration 3	Musculoskeletal system 3	Circulation 3		Surgery 2
	Emergency medicine	Infection	Nephrology/urology 3		
	Including clinical practice (GP / community health care) 6 weeks				

12th semester (7th year) (MED12)

Class B	Case-based teaching	OSCE
	Integrated clinical semester	

* Some of the elective courses will be taught in English

S Semester exam

OSCE Objective Structured Clinical Examination, modified version

These semesters are recommended for incoming students
