

UiB FERD

NEWSLETTER
for Early-Stage Researchers

Welcome to a new semester

The career center for early-stage researchers are proud to present a variety of non-curricular activities aimed at improved career development for early career academics.

Well-being and career development:

The Occupational Health Service at UiB offer both a lectures in psychological wellbeing and training courses for PhD candidates and early-stage researchers

	Joint the free lecture on the 8th of September
	Register for group-based counselling here
	Career Development Awareness 15th of September
	Improve your Academic English

Funding opportunities

The Research Development Fund (RDF) is an annual competitive fund offered by the Worldwide Universities Network (WUN), with grants up to £10,000 for international researchers across the network to collaborate. Apply by 2 October to build your network!	https://www.uib.no/en/fia/156199/apply-wun-research-development-fund-2022
PhD competitions:	https://www.forskningsdagenebergen.com/bergen/forsker-grand-prix-2022/

Other relevant courses:	https://www.esfri.eu/latest-esfri-news/std-ke-era-study-online-workshop
-------------------------	---

The University Library continues its popular webinar series on the principles of Open Science in Autumn 2022. Open science is a research practice where processes and results are openly available under conditions that promotes sharing, use, cooperation, and societal responsibility. Please follow the links for more information and to sign up for the webinars.

Data management Plans

A data management plan (DMP) describes how data in a research project will be collected, processed and made available. Writing a DMP is good scientific practice which helps structuring the data management in a research project and a requirement by research funders, e.g. The Norwegian Research Council or Horizon Europe. See also our information page: [UiB Library - Data Management Plans](#)

	August 19 th 10:00-11:00 CET	Introduction to Data Management Plans (in Norwegian)
	September 30 th , 10:00-14:00 CET	Data Management Plan Workshop
	November 25 th , 10:00-11:00 CET Following an introduction to data management plans, you will be able to work on your own DMP and receive feedback.	Introduction to Data Management Plans

How to make your data open & FAIR

Researchers are encouraged to make their data openly available as early as possible in the research process, and most funders, e.g. Norwegian Research Council or Horizon Europe, and publishers require that the research data from a project is made openly available. In the course you will get an introduction to how you can make your research data open and FAIR, and how to archive your data in our institutional archive UiB Open Research Data.

See also our information page: [UiB Library - Open Access to Research Data](#)

	September 2 nd , 10:00-11:00	How to make your data open & FAIR
	December 9 th , 10:00-11:00	How to make your data open & FAIR (in Norwegian)

Open Access publishing step-by-step

Governments, institutions, and research funders expect researchers to make their research openly available. What is open access, why should you make your research publications openly available and what services and support is available at UiB?

	September 16 th , 10:00-10:45	Open Access publishing step-by-step
---	--	---

Make your research visible using researcher profiles

Having a researcher profile is a great way to showcase contributions to your field and open science engagement. This seminar will demonstrate how to use ORCID and other researcher profiles to showcase your work.

Open Access Week

Open Access Week is an annual scholarly communication event focusing on open access and related topics. The national Norwegian program is the result of a collaboration between UiB and several other institutions and infrastructures. Stay tuned!

	October 24 th -28 th	Open Access Week 2022
---	--	---------------------------------------

Finding & reusing research data

Reusing published research data can open new avenues of research and avoids unnecessary duplication of efforts. The webinar will give an introduction to FAIR research data as a resource, explain data citation, and demonstrate strategies to efficiently discover datasets in your discipline.

	November 11 th , 10:00-11:00	Finding & reusing research data

UiB Ferd – Career Center for Early-Stage Researchers

UiB Ferd Career Center for Early-Stage Researchers will support younger researchers in their career development. The center will offer individual career guidance and a variety of courses to increase the target groups' career awareness and competence. In addition, the center will offer competence development activities within generic and transferable skills. The Career Center will offer support in career planning and strengthen younger researchers' career skills to handle transitions and change. We are a team from both HR and the FIA and are happy to receive input on what such a career center can offer.
