	Type	Comments
7012	Waste oil, not qualified for a refund	Other hydraulic, motor, gear and lubricating oils containing PCB
7021	Oil and grease wastes	Used petrol and diesel filters contaminated with mineral oil, crude oil from the petrochemical, oil phase of oil separators, oil-based grease.
7022	Oil-contaminated mass	Used petrol and diesel filters, input filters, oil rags
7023	Fuel and heating oil	Mixtures (gasoline and diesel), contaminated fuel, contaminated diesel / heating oil
7024	Oil filters	Used filters containing lubricants from vehicles / engines / machines, oily waste / oil filter with metal
7025	Raw oil or raw oil contaminated material	Waste consisting of, containing or contaminated with raw oil or condensate
7041	Organic solvents with halogen	Pure organic solvents with halogens
7042	Organic solvents without halogen	Pure organic solvents without halogens
7051	Paint, glue, varnish that is hazardous waste	Waste from removal of paint or varnish containing organic solvents or other dangerous substances. Sealants, adhesives, inks, paints and varnish waste
7055	Spray cans, disposable Bunsen burner, tinplate	Aerosols (toxic, corrosive, oxidizing), aerosols (flammable)
7081	Waste containing mercury	Chemicals containing mercury (fixed) mercury from EE waste (solid, liquid) mercury-containing waste from construction and demolition work (solid, liquid). Solutions containing mercury (liquid) mercury thermometers, metallic mercury from barometers, tilt and level switches.
7082	Batteries containing mercury	Button cells
7083	Cadmium-containing waste	Substances or solutions containing cadmium
7084	Batteries containing cadmium	NiCd batteries or other batteries containing cadmium
7085	Amalgam	Waste from dentistry
7086	fluorescent lighting	fluorescent lighting, energy saving lamps, etc.
7091	Inorganic salts and other solids	Other heavy metals solid waste, solid inorganic substances, laboratory chemicals inorganic solid (toxic)
7092	Lead accumulators	Lead-acid batteries (wet) - leak-free, lead-acid batteries (wet, filled with acid) where leakage cannot be excluded (Pb)
7093	Small batteries	Small batteries
7094	Lithium Batteries	Lithium (disposable batteries, rechargeable batteries)
7096	Catalysts, slag, dust, fly ash, blowing sand	Soil, sand and stones containing dangerous substances, catalysts containing hazardous compounds of heavy metals (lead), catalysts. Catalysts containing hazardous compounds of heavy metals (lead)
7097	Inorganic solutions and baths	Other inorganic compounds (chemical residues), liquid waste containing heavy metals, laboratory chemicals inorganic liquid (toxic)
7100	Waste containing cyanide	Cyanide-containing waste - solid and liquid, potassium cyanide solution and solid, sodium cyanide solution and solid
7111	Pesticides without mercury	Pesticides, herbicides, fungicides, insecticides, rat and mouse poison - solid and liquid
7112	Pesticides with mercury	Agriculture Chemical wastes containing dangerous substances - solid and liquid
7121	Polymerization component, isocyanates	Hardeners with isocyanates (flammable and toxic)
7122	Highly reactive substance	Bromine and bromide solution, phosphoric solution (white or yellow), phosphorous pentoxide, hydrogen peroxide (H2O2), iodine, potassium, calcium, calcium hypochlorite with 10-39% chlorine, calcium, lithium, sodium, sodium nitrate, sodium nitrite, sodium perchlorate, natriumpermanganat, peroxides (inorganic) , persulfates (inorg.), oxidizing (solid/liquid)
7123	Hardeners, organic peroxides	Hardeners for 2-component plastic, glue or paint - solid and liquid
7131	Acids, inorganic	Phosphoric acid and phosphorous acid, hydrogen fluoride (maximum 60% HF), inorganic chemicals, acidic waste, perchloric acid (maximum 50%), perchloric acid (between 50 and 72%), nitric acid (65-70%), nitric acid (less than 65%) , hydrochloric acid (> 51%), sulphuric acid (used). Battery acid maximum 51% acid
7132	Bases, inorganic	Ammonia Solution (10-35%), other bases - fixed and floating, Brent lime (CaO), hydrazine - solid and liquid, kaliumhydrosid - solid and liquid, other solid and liquid alkaline chemicals, calcium hydroxide, sodium hydroxide, sodium metasilicate. Chemicals - basic solid / liquid waste.
7133	Cleaning products	Detergents (not corrosive, flammable or oxidizing), cleaners without halogen / heavy metals
7134	Acidic organic waste - mixture of organic and inorganic substances	Acetic acid (10-80%), glacial acetic acid (> 80%), solid and liquid acidic organic waste, chlorosilanes, formic acid (> 85%). Chemicals - acidic organic solid / liquid waste. Laboratory chemicals organic, liquid, acidic.
7135	Alkaline organic waste - mixture of organic and inorganic substances	Amines and polyamines (corrosive, liquid). Chemicals - solid and liquid alkaline organic waste. Laboratory Chemicals - basic organic - solid / liquid. Organic waste - solid / liquid.
7151	Organic wastes with halogen	Organic solvent mixed with acids and other- solid and liquid. Degreasing residues. Hydraulic fluids (chlorinated). Discarded organic chemicals and mixtures with halogen (flammable and toxic) - fluently. Varnish Remover (dichloromethane)
7152	Organic waste without halogen	Organic solvent mixed with acids and various - solid and liquid. Formaldehyde Solution. Used activated carbon (from the treatment of exhaust gases). Used absorbents (paper, wiping cloths, absorbents, protective clothing). Distillation residues. Discarded organic chemicals and mixtures. Organic laboratory chemicals - solid / liquid. Reaction residues.
7156	Waste with phthalates	Phthalates are esters of phthalic acid.
7157	Discarded insulation with environmentally harmful blowing agents such as KFK and HKFK	
7158	Chlorinated paraffinic insulating glass panes	
7159	Chlorinated paraffinic waste	
7220	Photochemical	Fixer solutions, waste from businesses within photography, x-ray and graphic operations.
7230	Halon	Gases in pressure containers Halon 1211 and Halon 1301 (refrigerant gas)
7240	CFC gases	HCFCs, HFCs and other fluorocarbons
7250	Asbestos	Asbestos-containing building materials, insulation materials.
7261	Gases in pressure containers	Fire extinguishers, propane, propane / butane, oxygen, nitrogen, acetylene, helium, air. standard gases
3831-1	Radioactive waste from universities and research institutions, deposit mandatory	Deposit mandatory
3831-2	Radioactive waste from universities and research institutions, not depositing mandatory	Not depositing mandatory
