

	Type	Comments
<b>7012</b>	Waste oil, not qualified for a refund	Other hydraulic, motor, gear and lubricating oils containing PCB
<b>7021</b>	Oil and grease wastes	Used petrol and diesel filters contaminated with mineral oil, crude oil from the petrochemical, oil phase of oil separators, oil-based grease.
<b>7022</b>	Oil-contaminated mass	Used petrol and diesel filters, input filters, oil rags
<b>7023</b>	Fuel and heating oil	Mixtures (gasoline and diesel), contaminated fuel, contaminated diesel / heating oil
<b>7024</b>	Oil filters	Used filters containing lubricants from vehicles / engines / machines, oily waste / oil filter with metal
<b>7025</b>	Raw oil or raw oil contaminated material	Waste consisting of, containing or contaminated with raw oil or condensate
<b>7041</b>	Organic solvents with halogen	Pure organic solvents with halogens
<b>7042</b>	Organic solvents without halogen	Pure organic solvents without halogens
<b>7051</b>	Paint, glue, varnish that is hazardous waste	Waste from removal of paint or varnish containing organic solvents or other dangerous substances. Sealants, adhesives, inks, paints and varnish waste
<b>7055</b>	Spray cans, disposable Bunsen burner, tinplate	Aerosols (toxic, corrosive, oxidizing), aerosols (flammable)
<b>7081</b>	Waste containing mercury	Chemicals containing mercury (fixed) mercury from EE waste (solid, liquid) mercury-containing waste from construction and demolition work (solid, liquid). Solutions containing mercury (liquid) mercury thermometers, metallic mercury from barometers, tilt and level switches.
<b>7082</b>	Batteries containing mercury	Button cells
<b>7083</b>	Cadmium-containing waste	Substances or solutions containing cadmium
<b>7084</b>	Batteries containing cadmium	NiCd batteries or other batteries containing cadmium
<b>7085</b>	Amalgam	Waste from dentistry
<b>7086</b>	fluorescent lighting	fluorescent lighting, energy saving lamps, etc.
<b>7091</b>	Inorganic salts and other solids	Other heavy metals solid waste, solid inorganic substances, laboratory chemicals inorganic solid (toxic)
<b>7092</b>	Lead accumulators	Lead-acid batteries (wet) - leak-free, lead-acid batteries (wet, filled with acid) where leakage cannot be excluded (Pb)
<b>7093</b>	Small batteries	Small batteries
<b>7094</b>	Lithium Batteries	Lithium (disposable batteries, rechargeable batteries)
<b>7096</b>	Catalysts, slag, dust, fly ash, blowing sand	Soil, sand and stones containing dangerous substances, catalysts containing hazardous compounds of heavy metals (lead), catalysts. Catalysts containing hazardous compounds of heavy metals (lead)
<b>7097</b>	Inorganic solutions and baths	Other inorganic compounds (chemical residues), liquid waste containing heavy metals, laboratory chemicals inorganic liquid (toxic)
<b>7100</b>	Waste containing cyanide	Cyanide-containing waste - solid and liquid, potassium cyanide solution and solid, sodium cyanide solution and solid
<b>7111</b>	Pesticides without mercury	Pesticides, herbicides, fungicides, insecticides, rat and mouse poison - solid and liquid
<b>7112</b>	Pesticides with mercury	Agriculture Chemical wastes containing dangerous substances - solid and liquid
<b>7121</b>	Polymerization component, isocyanates	Hardeners with isocyanates (flammable and toxic)

<b>7122</b>	Highly reactive substance	Bromine and bromide solution, phosphoric solution (white or yellow), phosphorous pentoxide, hydrogen peroxide (H2O2), iodine, potassium, calcium, calcium hypochlorite with 10-39% chlorine, calcium, lithium, sodium, sodium nitrate, sodium nitrite, sodium perchlorate, natriumpermanganat, peroxides (inorganic) , persulfates (inorg.), oxidizing (solid/liquid)
<b>7123</b>	Hardeners, organic peroxides	Hardeners for 2-component plastic, glue or paint - solid and liquid
<b>7131</b>	Acids, inorganic	Phosphoric acid and phosphorous acid, hydrogen fluoride (maximum 60% HF), inorganic chemicals, acidic waste, perchloric acid (maximum 50%), perchloric acid (between 50 and 72%), nitric acid (65-70%), nitric acid (less than 65%) , hydrochloric acid (> 51%), sulphuric acid (used). Battery acid maximum 51% acid
<b>7132</b>	Bases, inorganic	Ammonia Solution (10-35%), other bases - fixed and floating, Brent lime (CaO), hydrazine - solid and liquid, kaliumhydrosid - solid and liquid, other solid and liquid alkaline chemicals, calcium hydroxide, sodium hydroxide, sodium metasilicate. Chemicals - basic solid / liquid waste.
<b>7133</b>	Cleaning products	Detergents (not corrosive, flammable or oxidizing), cleaners without halogen / heavy metals
<b>7134</b>	Acidic organic waste - mixture of organic and inorganic substances	Acetic acid (10-80%), glacial acetic acid (> 80%), solid and liquid acidic organic waste, chlorosilanes, formic acid (> 85%). Chemicals - acidic organic solid / liquid waste. Laboratory chemicals organic, liquid, acidic.
<b>7135</b>	Alkaline organic waste - mixture of organic and inorganic substances	Amines and polyamines (corrosive, liquid). Chemicals - solid and liquid alkaline organic waste. Laboratory Chemicals - basic organic - solid / liquid. Organic waste - solid / liquid.
<b>7151</b>	Organic wastes with halogen	Organic solvent mixed with acids and other-solid and liquid. Degreasing residues. Hydraulic fluids (chlorinated). Discarded organic chemicals and mixtures with halogen (flammable and toxic) - fluently. Varnish Remover (dichloromethane)
<b>7152</b>	Organic waste without halogen	Organic solvent mixed with acids and various - solid and liquid. Formaldehyde Solution. Used activated carbon (from the treatment of exhaust gases). Used absorbents (paper, wiping cloths, absorbents, protective clothing). Distillation residues. Discarded organic chemicals and mixtures. Organic laboratory chemicals - solid / liquid. Reaction residues.
<b>7156</b>	Waste with phthalates	Phthalates are esters of phthalic acid.
<b>7157</b>	Discarded insulation with environmentally harmful blowing agents such as KFK and HKFK	
<b>7158</b>	Chlorinated paraffinic insulating glass panes	
<b>7159</b>	Chlorinated paraffinic waste	
<b>7220</b>	Photochemical	Fixer solutions, waste from businesses within photography, x-ray and graphic operations.
<b>7230</b>	Halon	Gases in pressure containers Halon 1211 and Halon 1301 (refrigerant gas)
<b>7240</b>	CFC gases	HCFs, HFCs and other fluorocarbons
<b>7250</b>	Asbestos	Asbestos-containing building materials, insulation materials.
<b>7261</b>	Gases in pressure containers	Fire extinguishers, propane, propane / butane, oxygen, nitrogen, acetylene, helium, air. standard gases
<b>3831-1</b>	Radioactive waste from universities and research institutions, deposit mandatory	Deposit mandatory
<b>3831-2</b>	Radioactive waste from universities and research institutions, not depositing mandatory	Not depositing mandatory
