

## UiB guidelines for keeping safe

- **Stay at home and get tested** if you are experiencing respiratory symptoms
- **Clean your hands** with sanitiser gel before entering the teaching areas
- **Keep a minimum of 1 meter distance** to everyone
- **When entering:** Keep in line and keep distance. **When leaving:** leave the room row by row. Those who are closest to the door should be allowed to leave first.
- **Please register for the courses** where you attend teaching in Studentweb. This allows us to be able to trace infections more easily.
